

Discover Your Divine Destiny – Jim Addison

Overview of contents:

It may come as a shock to discover that your eternal destiny lies not with God but with you!

Right now, God does have a plan and purpose for your life and wants to bring you into the high calling which is yours, but in order for this to happen, He requires one thing of you and that is your co-operation.

When Jesus told the parable of the workers in the vineyard, He said that many are called but few are chosen. When it comes to Kingdom living, the majority of people are by-standers. They observe from a safe distance, unwilling to involve themselves in the affairs of men. They are unwilling to put their lives on the line because they are afraid of failure, afraid of the opinions of men and they are afraid to eliminate the option of the quick exit when things get tough.

If you fall into any of these categories and are not afraid to face the stark reality of it – then take heart! It is never too late to obey, to yield to the call, to settle once and for all your divine destiny.

Your birth, your lifespan and nationality are not an accident. Even the circumstances of your conception and birth have no bearing on call of God for your life.

The important thing to recognise is that you were born in time for an assignment that is ready to be fulfilled by you in your day and generation.

Your birth declared that God's assignment is ready for you. "Therefore be all the more diligent to make certain His calling and choosing you, for as long as you do these things you will not stumble."

Discover Your Divine Destiny is not intended to tickle your ears or to leave you challenged but unchanged. Our prayer is that as you read it, God Himself will make a lasting impression on your mind and heart.

Let every decision you make, be the decision that lines up with the will of God for your life.

His will for you is good, acceptable and perfect. You can discover this for yourself as you give His word entrance and submit to Him on a daily basis.
